Usage & Packaging

- Since this formula does not contain a preservative, it should be stored with the dry and wet ingredients packaged separately. If you prefer to store the formula pre-mixed, you'll need to add a preservative to the recipe. You can learn more about working with preservatives [here](#).
- For home use, you may also store the pre-mixed formulation in the refrigerator for up to 2 weeks.
- Our 2-ounce PET Jars are just the right size for the dry portion of this scrub. For the liquids, try storing them in a 1-ounce Flint or Amble Bottle.
- To use, simply massage the finished scrub onto your face or body using a gentle circular motion. Rinse thoroughly, then follow with toner and moisturizer.
